EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Gary Edwards on 8/30/2006.

3. The application has been amended as follows:

Cancel Claims 73-74, and 95.

Claim 79:

in lines 1-2, "The apparatus as claimed in Claim 78," has been changed to --The apparatus as claimed in Claim 65,--

Claim 83:

in line 7, "said measured sound" has been changed to --said noise sound, in accordance with said signal--

Claim 92:

in line 2, "the transducer is embedded in an item of jewelry for wearing on the ear", has been changed to --the transducer is situated on the ear--

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The general concept of an active noise cancellation apparatus comprising a transducer; a measuring device; and a sound cancellation device; wherein the transducer wirelessly transmits a signal representing sound in the vicinity of the ear canal, to the measuring device, which is an optical device; and wherein the wireless transmission of the signal take the form of light reflected from the transducer is well known in the art, as evidenced by the references cited. However, the examiner has not found prior art that teaches or suggest alone or in combination an active noise cancellation apparatus comprising a transducer; a measuring device; and a sound cancellation device; wherein the transducer wirelessly transmits a signal representing sound in the vicinity of the ear canal, to the measuring device, which is an optical device; wherein the wireless transmission of the signal take the form of light reflected from the transducer; and the apparatus further comprises a video tracking device configured to search for, acquire and track a location of said transducer; and said tracking device is further configured to communicate said location to said measuring device in order to adjust the measuring device so that sound can be measured at substantially the same location, regardless of any movement of the location of the transducer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Corey P. Chau whose telephone number is (571)272-7514. The examiner can normally be reached on Monday - Friday 9:00 am - 5:00 pm.
